This product information sheet provides details for AcumenMobile 3.0 – Compliance Management Software.

AcumenMobile 3.0

AcumenMobile 3.0 – Compliance Management Software is a flexible compliance management platform for managing product and service compliance issues for your mobile workforce. AcumenMobile 3.0 is a 'Software as a Service' application at <https://www.acumenmobile.com>.

Software Overview

AcumenMobile 3.0 Compliance Management Software enables your mobile workforce to control and track product & service compliance issues direct from their mobile devices.

Through AcumenMobile 3.0 your workforce can upload and publish compliance issues, photos and media directly from their mobile devices to a secure workspace from where management, peers and suppliers can then access securely for the latest information, decisions and updates providing a complete history of the issue and outcome.

AcumenMobile 3.0 is compatible PDAs, Blackberry's and Mobile Devices with an internet browser. AcumenMobile 3.0 will enable you to track who has uploaded the issue, read the content and track general user activity. Allowing users to seamlessly

update or edit content in real-time from any handset.

With AcumenMobile 3.0 collaboration capabilities, teams can share content, collaborate on compliance issues and publish information for user friendly secure access from any location.

Your organisation can also deliver seamless access to internal business systems with AcumenMobile 3.0 integration service. Please refer to the accompanying product information sheet 'AcumenMobile 3.0 Product Information Sheet - Mobile Integration Platform' for further information.
