This product information sheet provides details for AcumenMobile 3.0 – Document Tracking and Collaboration Online Software.

AcumenMobile 3.0

AcumenMobile 3.0 – Document Tracking and Collaboration Software is a flexible document tracking and collaboration platform which is delivered as a ‘Software as a Service’ application from <https://www.acumenmobile.com>.

Software Overview

AcumenMobile 3.0 Document Tracking and Collaboration Software enables you to control and track document reading, access, usage and file publication through a secure online software application.

Through AcumenMobile 3.0 you can publish documents to field-based, mobile or home workers to access documents and business information directly from their PDAs, Blackberry’s and Mobile Devices. AcumenMobile 3.0 will enable you to track who has read the document, track user activity and allow users to seamlessly update or edit content in real-time from any handset.

With AcumenMobile 3.0 collaboration capabilities, teams can share files, collaborate on document production and publish information for user friendly secure access from any location.

Your organisation can also deliver seamless access to internal business systems with AcumenMobile

3.0 integration service. Please refer to the accompanying product information sheet ‘AcumenMobile 3.0 Product Information Sheet - Mobile Integration Platform’ for further information.
