+44 (0) 1462 857278

This case study details the customisation of Acumen Insights Ltd core software platform AcumenMobile 3.0 for the International Society of Affective Disorders (ISAD) to deliver fellow and research management capabilities.

AcumenMobile 3.0

AcumenMobile 3.0 is a flexible collaboration and document management platform which is delivered as a 'Software as a Service' application from the host website at <https://www.acumenmobile.com>.

Acumen Insights technologies were customised to deliver a bespoke fellow management and research knowledge-base for ISAD.

Case Study

ISAD use AcumenMobile 3.0 technology for fellow management and research knowledge capabilities.

ISAD is a charity and company limited by guarantee operating out of the Institute of Psychiatry, King's College London. At the heart of the ISAD online website is an innovative website, fellow management services and a research knowledge-base.

With a fully hosted and managed service, Acumen Insights have worked closely with ISAD for many years delivering a secure and reliable online service that utilises AcumenMobile 3.0 technologies as the core application platform.

The online service for ISAD is a seamless fully branding application that enables both back-office

operations and fellow facing secure access to ISAD resources through an encrypted website and database.

A key aspect of the technology is to deliver a scalable and transparent business application to the ISAD team but also to enable an integrated public / fellow facing application embedded in the ISAD website.

The ISAD online fellow and research management system manages transactions and access from globally-based fellows. The application continues to manage over 400 fellows, associated transactions, payments, knowledge-bases and reporting needs.

With AcumenMobile 3.0 at the heart of the ISAD website, a reliable, secure and trusted application platform is delivered to ISAD 24*7 for anywhere, anytime access. The flexibility of AcumenMobile 3.0 architecture allows for efficient updating and change requests for ongoing and future enhancements.

Key Business Benefits

Many business benefits are delivered for ISAD, including:

- ▶ A core business application meeting the exact business process needs of ISAD.
- ▶ A scalable fellow management reporting and knowledge portal.
- ▶ Efficiency improvements for streamlined business processes and transparent operations.
- ▶ A dedicated fully managed solution that removes any technical constraints for Medivents.

ISO 9001& Data Protection

Acumen Insights Ltd is ISO 9001 Accredited (GB2003455) and registered under the Data Protection Act 1998 (Z9010304).
